

## Press Release: Haydn in the Highest

As the New Year rolls in, the **Orchestra of the Age of Enlightenment (OAE)** step up to greet it with **Joseph Haydn's** epic masterpiece 'The Creation'. Arguably one of the most vivid and descriptive pieces of classical music ever written, The Creation brings to life every aspect of it's biblical text from the black emptiness before the First Day to the heat of the sun as it rises for the first time. With the use of period instruments, the OAE are able to perform this magnificent piece as it would have been heard by Haydn himself.

**Adam Fischer** conducts the **Schola Cantorum of Oxford** alongside the stunning vocals of **Sophie Bevan, Andrew Kennedy** and **Andrew Foster-Williams**, in what promises to be the most uplifting and awe-inspiring way to start the New Year.
